Experience

Project Manager - 03/2020 to present

SCNP (Sporting Club Nord Parisien), France

- The SCNP (Sporting Club Nord Parisien) is a young, dynamic and ambitious club, with its members.
- I've worked as a Project Manager to build the mobile app. I've been supervising all coding styles, comments, working in order to ensure the quality and accuracy of the product.

Mobile app developer - 09/2021 to 02/2022

Repair Porter, New York

- Anyone can get help to repair anything from Repair Porter.
- The team consisted of 6 people: 1 designer, 3 website developers, and 2 app developers including myself. The designer provided us with the design in Figma and we built a mobile app from scratch using Java and Swift.

Full-stack developer - 08/2021 to 10/2021

UpayChat, Abuja, Nigeria

- UpayChat is Quick, Safe way to send and receive social payments online.
- I've worked as a full-stack developer to build web and mobile app.
- This app is built by the flutter and integrates the Quickteller API.
- For this, I was contacted so many times with Quickteller support and fixed many problems with

Experience

Build the Bluetooth app - 06/2019 to 02/2020

Terasys Network, Bern, Switzerland

- This company that Your competent partner in all IT areas! The influence of IT in the world is growing day by day.
- I've worked as a Mobile app developer to build eScooter Android & iOS apps. There was have problems with communication between eScooter and phone via Bluetooth but I solved this problem myself.

Team leader/Software Engineer - 06/2016 to 10/2018

K3CreativeGroup, Singapore

- Possessed almost 4 years of business and construction management experience encompassing a wide degree of involvement in several industries and sectors.
- My efforts have focused on project management and development.
- It's was my first management of the team, but I show my professional ability enough.
- I've provided project management expertise including but not limited to proposal development, planning and scheduling, procurement, and monitoring.
- Additionally, my past work history has allowed me to integrate strong leadership, negotiation, and analytical skills for roles in owner representation and development assessment.

Huper Market - 11/2015 to 04/2016

Huper Market, Singapore

- I've worked as a full-stack developer for building the Mobile app. The backend was built by ASP.Net and the app was built by Java and Swift.
- The client already has the design, and I managed to build a website and app, it has very simple functions.
